Summary of Financial Results

			[Billion Yen]
	FY2019 2Q	FY2020 2Q	Change
Orders Received	657.3	502.2	- 155.1
Net Sales	736.5	657.3	- 79.2
Operating Income / Loss	8.6	-21.8	- 30.5
Recurring Profit / Loss	0.8	-18.2	- 19.1
Net Loss Attributable to Owners of Parent	-3.7	-27.2	- 23.5

<Weighted-average exchange rates>

Yen/US\$	108.45	105.53
Yen/EUR	122.84	121.43

vs. FY2019.2Q

Orders Received

 Decreased mainly in Aerospace Systems and Energy System & Plant Engineering segments

Net Sales

 Decreased as a whole due to a decrease in Aerospace Systems, Motorcycle & Engine and other segments, despite an increase in Rolling Stock and other segments

Profits

- Operating income decreased due to a deterioration in Aerospace Systems and other factors, despite an improvement in Rolling Stock segment
- Recurring profit decreased due to a decrease in operating income, despite an increase in gain on foreign exchange and reversal of payments for the in-service issues of commercial aircraft jet engines
- Net income attributable to owners of parent decreased due to a decrease in recurring loss, impairment loss (Sakaide Works) as extraordinary loss, and the partial withdrawal of deferred tax assets, despite gain on sales of fixed assets being recorded extraordinary income

- Impairment loss		3.9	(\Rightarrow	-3.9)

Aerospace Systems

Main Products: Aircrafts for Japan Ministry of Defense(MOD), Component parts for commercial aircrafts, Commercial helicopters, Missiles, Space equipment, Jet engines, Aerospace Gearbox

FY2020.2Q (vs. FY2019.2Q)

• Orders Received: Decreased due to a decrease in component parts

for commercial aircrafts and component parts for

commercial aircraft jet engines

• **Net Sales:** Decreased due to a decrease in aircrafts for

MOD, component parts for commercial aircrafts and component parts for commercial aircraft jet

engines

• Operating Income: Deteriorated due to a decrease in revenue and

other factors

FY2020 forecast (vs. Forecast in August)

• Orders Received: Revised down due to a decrease in component

parts for commercial aircrafts and component parts for commercial aircraft jet engines by the

impact of COVID-19

• **Net Sales:** Same as above

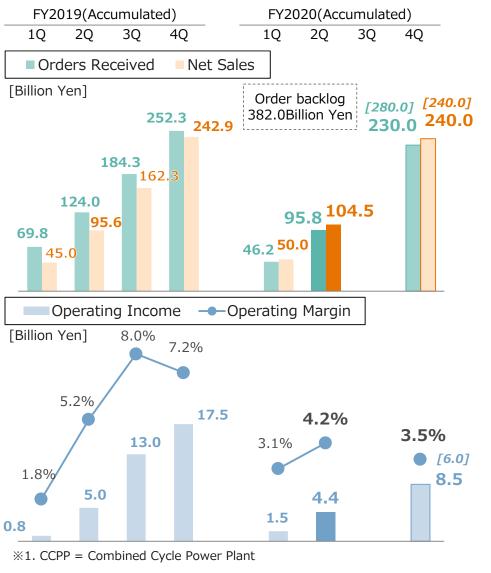

• Operating Income: Revised down due to a decrease in revenue

Sales units of component parts for commercial aircraft

	FY2018	FY2019	FY2020
	Actual	Actual	Forecast
Before-tax ROIC	5.0%	8.0%	-4.8%

Energy System & Plant Engineering

Main Products: Industrial plants(cement, fertilizer and others), Power plants, LNG tanks, Municipal waste incineration plants, Tunnel boring machines, Crushing machines,
Gas turbine co-generation system, Gas engines, Diesel engines, Gas turbines & steam turbines for marine & land, Marine propulsion system, Aero-dynamic machinery

FY2020.2Q (vs. FY2019.2Q)

• Orders Received: Decreased compared to FY2019 2Q when the

order received for major repair work on domestic

municipal waste incineration plants and a large-scale project in the energy business

• **Net Sales:** Increased due to an increase in construction

works for domestic municipal waste and an increase in sales of domestic gas turbine

combined cycle power plants

• Operating Income: Decreased due to the occurrence of operation

losses by the impact of COVID-19, despite an

increase in revenue

FY2020 forecast (vs. Forecast in August)

• Orders Received: Revised down due to project time lag by the

impact of COVID-19

• **Net Sales:** Remained at the same level

• Operating Income: Revised up due to profitability improvement of

some projects, a decrease in periodic costs and

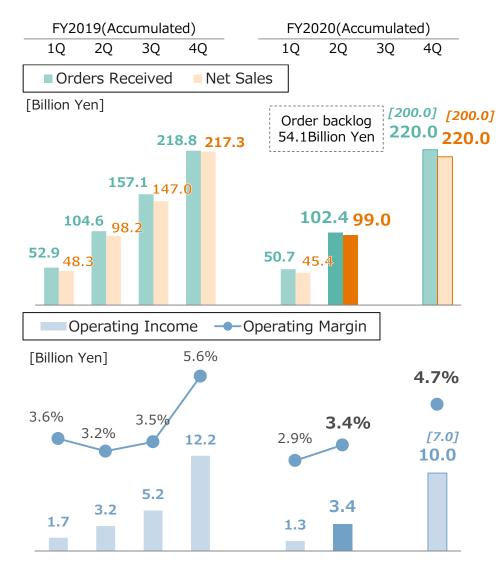

other factors

	FY2018	FY2019	FY2020
	Actual	Actual	Forecast
Before-tax ROIC	9.3%	10.4%	8.6%

Precision Machinery & Robot

Main Products: Hydraulic components for construction machinery, Hydraulic components and systems for industrial machines,

Marine application machines, Deck cranes and other marine deck equipment, Industrial robots, Medical and pharmaceutical robot

FY2020.2Q (vs. FY2019.2Q)

• Orders Received: Decreased due to a decrease in hydraulic

components for construction machinery, despite

an increase in robots for semiconductor

manufacturing equipment

• **Net Sales:** Remained at the same level due to a decrease in

in hydraulic components for construction machinery, despite an increase in robots for semiconductor manufacturing equipment

• Operating Income: Remained at the same level

FY2020 forecast (vs. Forecast in August)

• Orders Received: Revised up due to a recovery of hydraulic

components for construction machinery and an

increase in various robot

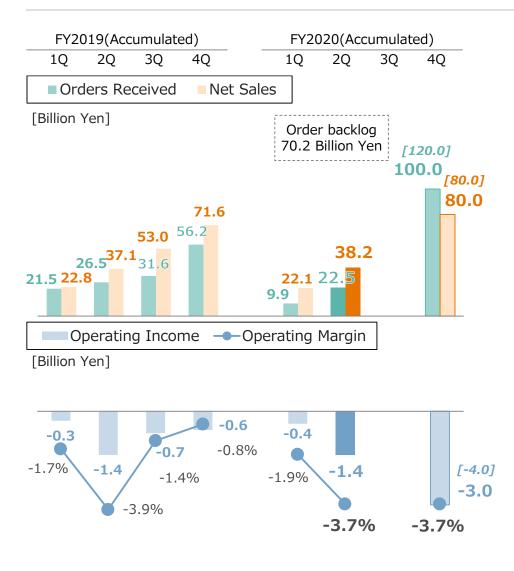

• Net Sales: Same as above

• Operating Income: Revised up due to an increase in revenue

	FY2018	FY2019	FY2020
	Actual	Actual	Forecast
Before-tax ROIC	19.8%	8.8%	7.6%

Ship & Offshore Structure

Main Products: LNG carriers, LPG carriers, Bulk carriers, Submarines, JETFOIL

FY2020.2Q (vs. FY2019.2Q)

• Orders Received: Decreased due to a decrease in orders received

of LPG carriers

• **Net Sales:** Remained at the same level due to an increase in

sales of ship repairs, despite a decrease in

construction work of new ships

• Operating Income: Remained at the same level due to a decrease in

construction work of new ships, operation losses and other factors, despite an increase in sales of

ship repairs

FY2020 forecast (vs. Forecast in August)

• Orders Received: Revised down due to project time lag by the

impact of COVID-19

• **Net Sales:** Remained at the same level

• Operating Income: Revised up due to a decrease in periodic costs.

retreat of concerns about profitability by the impact of COVID-19, and other factors

Units of Orders Received and Sales of New Building Ships

[Unit

	Orders F	Orders Received		Sales*

Before-tax ROIC	3.2%	1.4%	-6.9%

Rolling Stock

-17.3%

Main Products: Electric train cars (incl. Shinkansen), Electric and diesel locomotives, Passenger coaches, Bogies

FY2020.2Q (vs. FY2019.2Q)

• Orders Received: Decreased compared to FY2019 2Q when

received orders of subway and public railway for domestic market, despite received orders of

Shinkansen

• **Net Sales:** Increased due to an increase in passenger cars

for the domestic market

• Operating Income: Improved due to an increase in sales, despite a

deterioration in profit for overseas project by the

impact of COVID-19

FY2020 forecast (vs. Forecast in August)

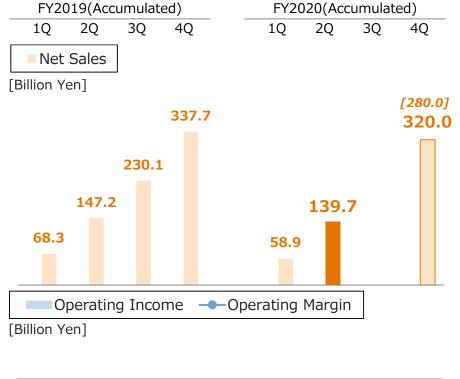

• Orders Received: Remained at the same level

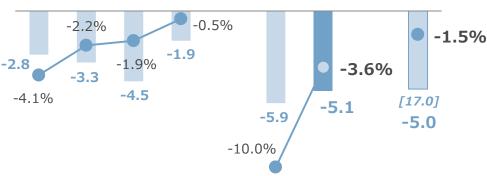

Net Sales: Same as aboveOperating Income: Same as above

	FY2018	FY2019	FY2020		
	Actual	Actual	Forecast		
Before-tax ROIC	-26.4%	-7.2%	-3.2%		

Motorcycle & Engine

Main Products: Motorcycles, Utility Vehicles, All-Terrain Vehicles(ATVs), Personal Watercraft, General-purpose Gasoline Engines

FY2020.2Q (vs. FY2019.2Q)

• **Net Sales:** Decreased due to a decrease significantly in

motorcycle for the emerging market

• Operating Income: Deteriorated due to a decrease in revenue, and

the appreciation of the yen against US dollar and the emerging market currencies, and other

factors

FY2020 forecast (vs. Forecast in August)

• **Net Sales:** Increased due to an increase in off-road

motorcycle and vehicles for the US market and

motorcycle for the Europe market

• Operating Income: Revised up due to an increase in revenue

Summary of Balance Sheet

			[Bil	lion Yen]
	End of	End of	Ch	ange
	Mar. 2020	Sep. 2020		
Cash on hand and in banks	106.1	153.1	+	47.0
Trade receivables	473.2	434.9	_	38.2
Inventories	631.6	659.3	+	27.7
Total fixed assets	503.9	488.3	-	15.5
Others assets	242.9	242.9	+	0.0
Total assets	1,957.8	1,978.8	+	21.0
Trade payables	371.6	303.9	-	67.7
Interest-bearing debt	567.4	729.4	+	161.9
Advances from customers	148.6	139.0	_	9.5
Other liabilities	398.5	365.1	_	33.3
Total liabilities	1,486.2	1,537.6	+	51.3
Total shareholders' equity	485.5	458.2	_	27.2
Other net assets	▲ 13.9	▲ 17.0	_	3.0
Total net assets	471.5	441.2	-	30.3
Total liabilities & net assets	1,957.8	1,978.8	+	21.0
Ratio of shareholders' equity to total assets	23.2%	21.5%	•	
Net D/E Ratio	101.2%	135.4%		

- Assets increased due to an increase in cash and deposit by securing cash on hand in case of an unexpected situation and an increase in working capital of Aerospace Systems segment and other factors
- Liabilities increased as a whole due to an increase in trade payables of Aerospace Systems segment, despite a decrease in in interest-bearing debt
- Net assets decreased due to net loss attributable to owners of parent, and other factors

Change in CAPEX and others [Billion Yen]

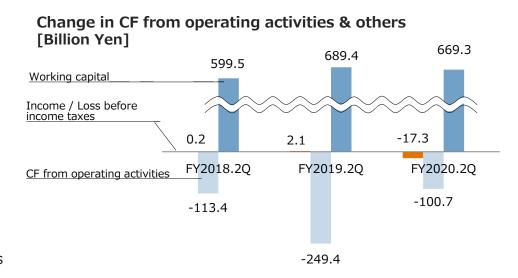

Change in interest-bearing debt [Billion Yen]

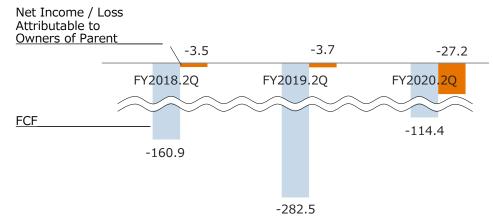

Summary of Cash Flows

			[Billion Yen]
	FY2019 2Q	FY2020 2Q	Change
Cash flows from operating activities	-249.4	-100.7	+ 148.7
Cash flows from investing activities	-33.0	-13.6	+ 19.3
Free Cash Flows	-282.5	-114.4	+ 168.0
Cash flows from financing activities	249.9	161.2	- 88.7

- Cash flows from operating activities improved due to differences in receivables payment timing in Aerospace Systems segment and a decrease in working capital in Motorcycle & Engine segment
- Cash flows from investing activities improved due to income from sales of fixed assets and stock of affiliated companies
- Given the above mentioned changes, free cash flows improved

Change in FCF & Net Income attributable to Owners of Parent [Billion Yen]

Reason for the Revision

Orders Received

 Revised down as a whole due to a decrease in Aerospace Systems, Energy System & Plant Engineering and Ship & Offshore Structure segments, despite an increase in Motorcycle & Engine and Precision Machinery & Robot segments

Net Sales

 Revised up as a whole due to an increase Motorcycle & Engine and Precision Machinery & Robot segments, despite a decrease in Aerospace Systems and other factors

Profit

- Operating income revised up a whole due to improvements of Motorcycle & Engine, Precision Machinery & Robot and Energy System & Plant Engineering segments, despite deterioration in Aerospace segments
- Recurring profit and net income attributable to owners of the parent deteriorated from operating loss, due to impairment loss (Sakaide Works) and other factors
- The year-end dividend forecast for FY 2020 has been undetermined as of August, but as a result of comprehensive consideration of our business environment, no year-end dividend will be paid

Market Overview (1/2)

Aerospace Systems

- In military aircraft business, there is a certain demand within tight defense budget.
- In commercial aircraft business, global passenger demand has been sluggish due to the impact of COVID-19, both aircraft and aircraft jet engine business demands decline.

Energy System & Plant Engineering

- In Japan, the demand for major repair work on municipal waste incineration plants continues.
- In the medium and long-term, the demand for distribute power plants in the domestic and overseas market, and for energy infrastructure development in emerging countries is strong.
- However, the uncertain situation continues due to the review of short-term capital investment decisions by customers due to factors such as economic activity stagnation and resource price instability caused by COVID-19.

Precision Machinery & Robot

- <Construction machinery>.
- Since the Chinese market has been recovering from the impact of COVID-19, our sales to the Chinese market also exceeded FY2019 2Q.
- Demand significantly decreases world wide except the Chinese market due to market stagnation by the impact of COVID-19.
- At present, demand is beginning to recover in regions other than China, but the forecast remains uncertain.
- <Robots>
- Sales of general purpose robots remained strong in Chinese market where recovery was quick, despite there were delays in projects by the impact of COVID-19.
- In semiconductor markets, demand is stable at this point, and the future demand will steadily expand in the medium to longterm, despite the forecast remains uncertain due to situation based on the US-China trade friction.

Market Overview (2/2)

Ship & Offshore Structure

- The demand for LNG fueled vessels increases along with strengthening environmental regulations.
- However, the situation is still intense due to the shipping market downturn in long-term, delays in business negotiations due to the impact of COVID-19.

Motorcycle & Engine

 The market has been significantly affected due to the impact of COVID-19 in the major market of Europe, North America, and Southeast Asia.

Rolling Stock

- Review of railway related investment in domestic, delaying project schedule and postponement/ cancellation of bit in overseas are becoming reality by the impact of COVID-19.
- Stable growth is expected in the railway business in the medium to long term, based on the needs of railway infrastructure to deal with the congestion mitigation and environmental measures in emerging countries.

Kawasaki, Working as one for the good of the planet

Figures recorded in the business forecasts are forecasts that reflect the judgment of the Company based on the information available at the time of release and include risks and uncertainties. Accordingly, the Company cautions investors not to make investment decisions solely on the basis of these forecasts.

Actual business results may differ materially from these business forecasts due to various important factors resulting from changes in the external environment and internal environment. Important factors that may affect actual business results include, but are not limited to, economic conditions, the yen exchange rate against the U.S. dollar and other currencies, the tax system, and laws and regulations.
